

Feb. Thousands of workers will gain wage increases under "escalator clauses."

Transportation and Communications

- Oct. 10—The Interstate Commerce Commission grants Southern railroads a 10 per cent passenger fare increase to compensate for increased labor and materials costs. This is the first such increase given this group since 1948.
- Oct. 30—President Truman signs into law a measure increasing postal rates by \$117 million annually. The bill doubles the penny postcard rate, effective Jan. 1, and imposes a series of 3 annual 10 per cent increases in the cost of mailing newspapers and magazines, effective Apr. 1.

VENEZUELA

- Oct. 13—Authorities smash an uprising against the Government that included an attempt to assassinate members of the ruling junta. At least 10 persons are killed and many more wounded throughout the country. The Interior Minister lays the disturbances to 2 dissolved parties, the Accion Democratica and the Communists. More than 300 persons are jailed in Caracas.
- Oct. 23—A member of the governing junta states that general elections will be held next year as scheduled. He says the recent attempts at overthrowing the junta has had no effect on these plans.

YUGOSLAVIA

- Oct. 8—Premier Marshal Tito wans his people that the country has many enemies in the Western countries as well as in the Communist bloc

nations. He also announces that 8,445 Cominform spies have been discovered in Yugoslavia since the 1948 break-away from Russia.

- Oct. 12—The Government announces a new tactical concession to the independent peasants to sustain the free sale of food. Compulsory delivery of lard and olive oil by the peasants at controlled prices is abolished immediately.

- Oct. 14—United States Army Chief of Staff J. Lawton Collins confers with Marshal Tito and Yugoslav military leaders at Belgrade. They discuss fundamental problems arising from the Yugoslav request for large-scale assistance in weapons and ammunition.

- Oct. 20—Reports from Serbia indicate that the slowdown of harvesting operations begun last summer by the peasants has inflicted even greater damage to the Government's crop program than in Croatia. In Croatia only 10 per cent of the winter wheat sowing plan has been fulfilled.

- Oct. 30—Official reports indicate that peasant resistance to land collectivization and the compulsory delivery of bread grains to the state has reached the point of a nation-wide slowdown strike. Farmers are sowing only enough grain for their immediate needs.

- Oct. 31—Premier Tito describes the precise limits within which his government is prepared to cooperate with the West and the areas in which it cannot cooperate. He says that in the event of a world war he will be on the side of the West. But he says his Government will not sacrifice its principles to obtain Western aid.
